

Help us keep kids safe,
one day at a time.

2nd Annual Progressive Ag Safety Day - Field Trip November 3 at International Agri-Center

Each year, more than 20,000 young people are injured or killed on farms or ranches. This tragedy is even greater, knowing that most of these injuries and deaths are preventable. Progressive Agriculture Safety Days® teach kids how to stay safe and be healthy on the farm, ranch and at home. Last year, more than 85,000 children and adults attended Safety Days in 380 communities.

Won't you contribute and help us protect what farm families cherish the very most...their children?
